

PDZI9000

new

Advanced protection relay for 25 kV and 2x25 kV AC applications

PDZI9000

AC Catenary Protection Relay

Our new PDZI9000 relay protects fixed electrical traction installations, in particular catenaries for 50/60 Hz networks, and for both 25 kV & 2x25 kV powering.

It's part of our 9000 range relays designed for railway protection, which addresses both AC and DC networks.

Advanced features

- High resolution (800*480) colourful touchscreen
- Two 16A outputs dedicated to circuit breaker
- Fully configurable 29 binary outputs/ 18 binary inputs
- IEC 61850 edition 2 and Modbus for SCADA
- 19 inches - 3U case, 355mm depth
- 16 configurable Leds
- Embedded web server
